Professional Summary

Aspiring Java Developer with a strong foundation in Java, Spring Boot, MySQL, HTML, CSS, JavaScript, and React. Knowledgeable in developing RESTful APIs, database-driven applications, and responsive web interfaces through academic and internship experience. Proficient in object-oriented programming, version control, and modern web development practices. Eager to apply technical skills, expand software development knowledge, and contribute to building scalable and user-focused applications in a collaborative environment.

Technical Skills

Programming Languages	Java, JavaScript, SQL
Frontend Technologies	HTML, CSS, React
Backend Technologies	Spring Boot, REST APIs, JWT Authentication
Databases	MySQL, PostgreSQL
Tools & Platforms	Git, GitHub, Postman, jsPDF
Concepts	Full-Stack Development, Responsive Web Design, UI/UX Design

Professional Experience

Software Engineering Intern 2025
Vulture Lines Tech Management Pvt Ltd *Source Code*

- Engineered **EduStack Pro**, a dark-themed interactive engineering platform and code validation terminal supporting multi-tier full-stack learning tracks in Java, JavaScript, MySQL, and C/C++.
- Implemented simulation-based interfaces for a mock V8 Runtime, Relational Schema Mapper, and Keyword Compliance Parser to monitor student progression metrics.
- Designed responsive modular dashboards integrated with simulated sandbox containers, real-time synchronization workflows, and tier-based authentication systems.
- Collaborated in agile development sprints using version control workflows to deliver responsive user experiences optimized for desktop, tablet, and mobile devices.

Projects

Finance Tracker — Full Stack Personal Finance Dashboard Source Code
React, JavaScript, Spring Boot, Java, MySQL, JWT Authentication

- Architected a secure full-stack personal finance application featuring real-time transaction tracking, bill reminders, and interactive data visualization for comprehensive budget management.
- Engineered a dynamic Category Cap visualization system that monitors spending limits and generates automated alerts when users approach budget thresholds.
- Designed a responsive dashboard UI using React and Recharts to visualize spending trends and category-based financial insights for improved decision-making.
- Developed RESTful APIs with Spring Boot and JWT authentication to securely manage user profiles, income configuration, and transaction history.
- Implemented complex state synchronization for real-time dashboard updates, ensuring seamless data flow between frontend interfaces and relational backend databases.

Education

Dhanalakshmi College of Engineering 2022 – 2026
Bachelor of Engineering in Computer Science and Engineering CGPA: 7.98/10

Zion Matric Higher Secondary School 2020 – 2022
Higher Secondary Education 12th: 72.33%
SSLC Education 10th: 67.20%

Certifications

- Cybersecurity for Beginners
- Internship Certificate – Vulture Lines Tech Management Pvt Ltd
